**BOND OR UNDERTAKING REQUIREMENTS FOR MOBILEHOMES, COMMERCIAL
MODULARS, TRUCK CAMPERS, AND FLOATING HOMES**

Section 18086.5 of the California Health and Safety Code provides that the Department of Housing and Community Development may accept a bond or undertaking to support the issuance of the California Certificate of Title when regular evidence of ownership is not obtainable.

The Department may receive an application and investigate the circumstances of the case. However, before a bond may be accepted by the Department in lieu of proper titling documents, the applicant must present a Statement of Facts giving the following information:

1. Explain the circumstances of how possession of the unit was taken (i.e., how, when and from whom was the unit acquired).
2. What effort was made to contact the last owner(s) of record to obtain evidence of ownership and why it is not obtainable?
3. Provide the current market value of the unit.

The bond submitted to the Department must meet the following requirements.

1. The bond must be equal to the current market value of the unit. When determining market value, the Department may at its discretion, use an approved value guide or the actual known sales or purchase price of the unit.
2. The bond must name the principle, the person purchasing the bond. This can be the owner of the unit or another person.
3. The bond must list the surety company's name. The surety company must be authorized to transact business in the State of California.
4. The bond must provide a sufficient description of the unit so that the Department may verify for which unit the bond is submitted. The descriptive information may include, but is not limited to, decal or license number, serial number, and trade name or manufacture name.
5. The bond must be valid for three (3) years and protect the Department and any future owner against loss resulting from any defect in or undisclosed claim upon ownership of the unit.
6. The bond must be signed and dated by the principal and the surety company.

The department does not provide a bond form for the use by surety companies. However, a sample of a bond is provided on the reverse side to assist surety companies in preparing a bond.

NOTE: The final determination as to the circumstances requiring a bond and the amount of the bond rest with the Department.
